
ANNA VASILEVICH

FRONTEND DEVELOPER WITH EXPERIENCE IN JS | REACT | TYPESCRIPT

ABOUT

I'm Anna, a Frontend Developer based in Warsaw. Over the past year, I've built 15+ projects, working on hands-on tasks, not just tutorials. My experience includes landing pages, SPA, Canvas animations, working with APIs... and even refactoring and migrating existing projects. I've learned through self-education and online courses, focusing on writing clean, maintainable code.

EXPERIENCE

THE ROLLING SCOPES SCHOOL / FRONTEND DEVELOPER – 2024-PRESENT

Rolling Scopes School is an online educational platform focused on self-study and practical task completion in Frontend. The program includes independent study of technologies, with mentorship and community support throughout. The work is based on receiving assignments for real projects. The code is reviewed by a mentor, and the functional part crosschecks reviews among students. This approach allows me to solve real-world challenges, write documentation, understand other people's code, and gain strong technical knowledge directly from official documentation.

SKILLS

JAVASCRIPT | TYPESCRIPT | HTML | CSS | SASS | TYPESCRIPT | REACT.JS | VITE WEBPACK | GIT |
NODE.JS

LIST OF MY PROJECTS

EDUCATION

RS SCHOOL - JAVASCRIPT / FRONT-END COURSE

Hands-on course focused on practical development. Build real projects, including a multi-page shelter website, a landing page, a music player, an image gallery with API integration, and a Tic-Tac-Toe game.

Gain experience with JavaScript, DOM manipulation, APIs, and responsive design

UDEMY - COMPLETE JAVASCRIPT & REACT COURSE. FROM ZERO TO PRO

Hands-on course focused on practical development. Build real projects, including a multi-page shelter website, a landing page, a music player, an image gallery with API integration, and a Tic-Tac-Toe game.

Gain experience with JavaScript, DOM manipulation, APIs, and responsive design
